PROFESSIONAL EXPERIENCE

Frontend Developer   06/2023 – present
Tekion India Pvt Lmt ⧉   Chennai, India

- **Developed and optimized** client applications using React, ensuring high code quality through comprehensive code reviews, and **reduced** bugs by 20%, improving overall application stability.
- **Created** a custom toolkit that **streamlined** project setup by 70% through the integration of Tekion configurations for React and Webpack, **accelerating** the onboarding process for new projects and reducing development time.
- **Debugged and resolved** critical performance issues, **decreasing load times by 4%** across multiple application modules, resulting in a smoother user experience and increased client satisfaction.
- **Mentored** junior developers by conducting code reviews and pair programming sessions, **boosting their productivity by 25%** and contributing to overall team performance.

PROJECTS

Global Feature Tracker
Tracking and manging the features created by dealers.

- Revamped a feature management system to track and manage dealer-created features, incorporating task management functionalities.
- Overhauled the project with a new design, completing Feature Tracker MVP within 2 months, while addressing all bugs and feature updates.
- Enhanced system performance by 35% and reduced feature deployment times by 20% through optimized design and improved processes.

Dealer Community
Hackathon Project | React, Go, Mysql

- Developed an online community platform for dealers, inspired by Stack Overflow, integrating a learning system and AI-driven auto-answer feature.
- Led a team in an 18-hour coding competition, handling full-stack development and project management.
- Achieved an 80% reduction in support tickets and enhanced user engagement through real-time knowledge sharing and education.
